Smokers' Requested a Specialty.

## KONA HITS MAUI HARD

Wind and Rain Do Great Damage to Island.

**KAHULUI IS UNDER WATER**

Near Camp Three Is a Deposit of Mud Twelve Feet Deep.

(Special Correspondence.)

WAILUKU, Maui, Nov. 17.—The Kona storm struck Maui with great force on Wednesday, and has continued with varying force until the present moment. Kamaaina state that it has been the greatest wind and rainstorm combined since 1880.

There have been violent southern gales and heavy rainfalls but no combination of the two equal to the present Kona for fifteen or twenty years past.

The wind began at 11 p. m. on the 14th and blew a gale till noon of the 15th. Downpours of rain came at intervals, sweeping through exposed house-walls as though they were made of paper. During that night 3.46 inches of rain fell at Haleakala ranch and at least seven or eight inches further makai, at the elevation of Paia or Spreckelsville.

During the afternoon of the 15th the wind blew moderately until dark, when the wildness of the previous night was repeated. The rainfall of the night, as taken at Paia plantation on the morning of the 16th, showed a record of 9 1/2 inches and the gauge was overflowing. During the storm from the evening of the 14th to this morning (the 17th) the rainfall at Haleakala ranch was 6.44 inches, and at Paia plantation Manager Lindsay estimates from seventeen to eighteen inches.

Kahului is all adrift. Nothing but water, with the houses forming tiny islands here and there, can be seen. The little town is certainly most unfortunate—first, to be destroyed by fire during plague times and now to be soaked with water.

From a distance one might imagine that the Galveston episode had been repeated, but on closer inspection it is seen that all the buildings are intact. The damage to goods and property from water will be considerable.

No trains between Kahului and Paia have been run by the Kahului Railroad Company for several days past. It has been impossible, for the tracks are flooded from Kahului through Spreckelsville to the large H. C. Co.'s pump, which is situated very near the Paia boundary line.

On the Kahului-Makawao Government road in a large hollow just above the Spreckelsville Camp No. 3, the freshet has washed down such a vast quantity of mud that the thoroughfare is impassable.

A. Tavares, manager of Pukalani dairy of Makawao, states that he has been unable to make his usual daily trip to Kahului and Wailuku for three days past on account of the great deposit of mud and debris just above Camp 3. He estimates that the mud at this place is at least twelve feet deep, for the fence and a small-sized horse (galgaroba) tree have been completely buried.

All communication between Makawao and Wailuku districts has thus been cut off. Last evening at sunset a most beautiful view was presented by the rays of the setting sun shining upon and glistening in the many streams of water which were running in all the gulches of Kula, a most unusual spectacle for that dry section of the country. During the storm in Kula about 100 acres of corn and potatoes were swept downward and destroyed by the flood. The plains below the Kula slope are reported to be covered with destroyed corn, potatoes and "paninies."

The wind blew with tremendous power during the nights of the 14th and 15th. Telephonic communication all over the island has been cut off since the morning of the 15th. Many poles have been blown down and trees in falling have broken the wire in many places. Several hundred trees, eucalyptus, pine, the bark of the animal. During the night of the 15th, at Kalaupani, a tree in falling completely severed the veranda from a cottage. The inmate, the Chinese cook of Mrs. P. A. Alexander, was terribly frightened but otherwise uninjured. The story of the storm cannot be fully related until the broken wires and uprooted poles of the telephone system have been repaired.

FACTS ARE STUBBORN.

If Honolulu People Are Not Convinced by Local Testimony They Differ From Other People.

Our readers will have noticed how in the past two years "Cures" have multiplied in the newspapers very fast, and the public are becoming skeptical. Facts are demanded, but it has also become essential to know who supplies these facts, where they are from. People will not now accept incredible cures from the other side of the world. They want them at home. "Give us some neighbor, then I will believe" is what is asked for. Doan's Backache Kidney Pills do this. Call it what you like, home, local or neighbor's testimony, you can always ascertain the truth of it without leaving the city limits. Here is a case:

Mr. W. J. Maxwell of this town, Truant officer, writes thus: "I suffered with a horrible pain in the small of my back (an almost invariable symptom of kidney trouble) for a number of years. I was advised to take some of Doan's Backache Kidney Pills, and following the suggestion, I went to the Hollister Drug Co.'s store, Fort Street, and got some of these. Having taken them, they relieved me—straight away, and are, I may say, the best and in fact the only cure for backache. I have mentioned the virtue of this wonderful remedy to several persons, among whom is my friend, Mr. Frank Metcalf, who found relief, and he is now a firm believer in Doan's Backache Kidney Pills."

Some of the symptoms of kidney disease are pain in the back, and sides, headaches, nervousness, frequent thirst, hot dry skin, shortness of breath, evil forebodings, troubled sleep, puffiness of the eyelids, swelling of the feet and ankles, loss of flesh,

dark colored urine, deposits, etc. If you have any of these symptoms you should lose no time in treating them, for delay is dangerous.

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Muddled Her Footsteps.

A pretty young woman of Honolulu had an experience with muddy roads Saturday which has amused her friends considerably. She was driving with an elderly man in Manoa valley. Suddenly the buggy wheels sank to the hubs and the horse was unable to proceed. All about was a sea of mud. After waiting for half an hour for a chance vehicle, the young lady adopted heroic measures. She removed her shoes, then her stockings, and, winding her skirts around her, attempted to reach dry land. She floundered and fell down several times and was finally compelled to retreat to the buggy, where she and her companion were found an hour and a half later by a native driver of a dray, who hauled them to safety.

TERITORIAL AFFAIRS.

Various Matters Discussed in the Governor's Council.

An estimate of Sewer Engineer Edwards was read at the Governor's Council yesterday morning for building a storm sewer on Fort Street. His figures were \$4,800. The council recommended that Mr. McCandless go ahead with its construction. This sewer will provide for the drainage of surface water from the street and do away with much of the inconvenience sustained by residents during the recent storms.

A reply from the Rapid Transit Company was read by Mr. McCandless to the Governor's letter asking the company to specify its charges for digging graves and as to whether or not the company would pay the Government for the land, and, if so, what amount.

The Rapid Transit reply was to the effect that it would pay the Government 10 per cent of the gross receipts resulting from the sale of lands, the company to pay all expenses. The company further stated the charge of digging graves would be the actual cost price and that the charge for water and the care of lots would not exceed \$10 per annum and a proportionate price for portions of lots.

The proposition submitted yesterday was not a new one but only a reply to the Government's request for detailed information concerning the cemetery project of the railway company.

One hundred thousand dollars was authorized to be transferred from the current to the loan fund.

Mr. McCandless spoke again of the land desired by Mr. Galt on Liliha street, and also the proposition of the Bishop Estate in regard to that land, stating they would transfer certain land which was required for the extension of Queen Street for the property on Liliha street. No action was taken.

Alleged discoveries of rich pearls in the upper Mississippi river in Wisconsin, has caused a rush to the new Eldorado. A pearl is alleged to have been found which sold for \$3,000.

**HOSTETTER'S**  
CELEBRATED

**STOMACH BITTERS**

Undigested Food

Becomes poison in a few hours and is responsible for constipation, indigestion, dyspepsia, languor, nervousness and all liver and kidney ills. Where there is one or all of these ailments Hostetter's Stomach Bitters should be taken at once. It prevents as well as cures all stomach ills, and is a specific for malaria, fever and ague. When you get it see that a PRIVATE REVENU STAMP covers the neck of the bottle.
